

Hi, my name is Lyndal and my youngest daughter Audrey attends SPPS in middle primary.

Audrey and I chose SPPS as her new NT school because of the welcoming friendliness of staff and students we experienced when we came to visit last year. I have joined the School Council this year.

I have spent almost 20 years as a teacher in the NT and overseas, East and West Africa particularly, and now work in Public Health Policy. Children's Health Literacy is a passion of mine, through performing arts and education that I do at a community level when I can. As an SPPS School Council rep though I am a mum and a member of the Wagait Beach community.

I look forward to being involved in the school over the coming years.
